Product Manager with experience across consumer gaming, fintech/payments, AI tooling, and platform operations. Led 0→1 launches and experimentation initiatives driving measurable revenue, engagement, and operational efficiency gains.

WORK EXPERIENCE

PrizePicks July 2024 - Present
Product Manager Atlanta, GA

- Spearheaded Early Payout (PrizePicks’ [first in-game cashout feature](#)) owning every stage from ideation through design, UXR, legal alignment, pricing validation, marketing, metric monitoring, and phased roll-out
 - Generated over 5M successful cashout events by more than 1.75M unique users
- Validated Early Payout as a re-engagement engine through controlled experimentation;
 - Eligible users spent 22% more time-in-app, and were 12.3% more likely to place their next entry
- Reduced support volume by 1,000+ tickets/month by launching self-refund status badges
- Built event tracking and KPI framework from scratch for my gameplay domain
- Championed and introduced Cursor-based AI prototyping workflows adopted across the product org

NCR Voyix July 2023 – July 2024
Product Manager Atlanta, GA

- Identified unmonetized API overages (reducing GCP calls by 12M/month), creating a new revenue stream
- Built feature request intake workflows and Power BI dashboards tracking real-time OKR performance
- Launched customer advisory board with 12 CIOs to improve release alignment and transparency

Microsoft March 2020 – May 2023
Operations Project Manager: *July 2021 - May 2023* Atlanta, GA

- Led moderation operations for Microsoft Start, improving platform quality (reduced defects by 6%) and retention
- Managed and scaled moderation operations in two European markets to 100% amidst a 196% volume increase

Program Manager: *March 2020 - July 2021* Redmond, WA

- Coordinated & hosted bi-weekly technical workshops with stakeholders & over 75 Partners
- Developed and launched 5 partner marketplace features improving buying and selling workflows

Intern: *May 2018 (Software Engineer) and May 2019 (Product Manager)* Redmond, WA

- Oversaw end-to-end development of features that showed Microsoft Partner’s potential incentives they were within 10% of achieving, resulting in an increase of revenue generated by Partners
- Developed & experimented with 4 different UX designs for the My saves mobile feature on Microsoft Bing

EDUCATION

University of Florida Gainesville, FL
Bachelor of Science, Computer Science & Minor, Digital Arts and Sciences

- Graduated cum laude
- Vice President of the Software Engineering Club, member of WiCSE, & lead apparel designer for Kappa Delta
